- Storable nano dongle
- Precise laser sensor
- Low battery indicator keeps you informed of power level

Wirelessly connect to multiple PCs
- Interference-free 2.4 GHz wireless connection

Travel pouch
- Pouch

PHILIPS
sense and simplicity

Highlights

360 TouchControl™

You don't need a mouse pad for this mouse. Philips 360°TouchControl™ lets you scroll through lengthy documents without installing extra software. Designed for easy navigation of spreadsheets, web pages, photos and maps when the notebook is connected to a monitor, so you can still navigate comfortably while relaxing on the sofa and be in full control of the notebook—unlike a notebook touch-pad. Instead of the traditional scroll wheel, its touch sensor gives you the freedom to move in all directions. With your finger on the sensor you can move the cursor smoothly and quickly through 360 degrees.

Works even without a surface

With the 360 TouchControl, the mouse can work even when there is no surface

Interference-free 2.4 GHz

The product is connected by a stable wireless solution

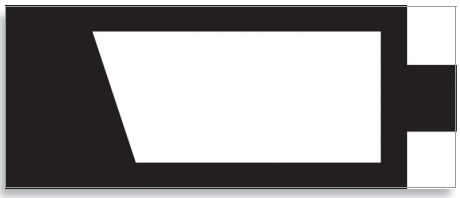
Storable nano dongle

The dongle is small and can be stored inside the product. You can also leave the dongle in the USB port without the need to remove it.

Precise laser sensor

Philips laser ensures extra accuracy and responsiveness. You can work with it on most surfaces

Warns of low power level



The low battery indicator lights up when the power is low.

360° TouchControl™
